Already Arriving—Avia-
tors Due Next Sunday.

Business men and the large corpora-
tions of Colorado Springs and the
Pikes Peak district generally have
awakened to the realization that the
eyes of the entire country will be on
Colorado Springs next week during the
aviation meet and big carnival cele-
bration, and that it is up to this city
to "make good." As a result the busi-
ness men, small and large, are getting
into the collar in the matter of decorat-
ing their places of business and hav-
ing them illuminated at night on a
scale never before attempted.

The celebration and aviation meet is
attracting attention from the press of
the entire country, and in view of the
thousands of visitors who will come
especially for carnival week, the busi-
ness men realize that it will be an oc-
casion for Colorado Springs to make a
hit.

The importance of having the city at
its best next week has caused a rush
in the decorating and illuminating line,
and yesterday morning began to pour
into the electrical construction com-
panies and the professional decorators.
The work of constructing designs for
the electric illuminations will com-
mence today, and so general will they
be that the local companies expect to
have their men working overtime un-
til the very moment of the formal
opening.

Many to Have Elaborate Designs.
Among the buildings for which or-
ders have already been given and
which will have the most elaborate de-
signs, are the Antlers hotel, Exchange
National bank, First National, El Paso
National, Mining Exchange building,
Masonic temple, Elks home, El Paso
club, Opera House building, new
Burns theater, Hagerman building,
Goldings building, Alamo hotel, Alta
Vista hotel, Acacia hotel, city hall,
court house, Y. M. C. A. building and
Ogden Fellows temple. Many of the most
elaborate illuminations will cost sev-
eral hundred dollars, but there will be
no expense for the electric power used
in lighting, as the Colorado Springs
Light, Heat and Power company has
offered this free of charge. It is
pointed out that the small blocks and
modest places of business should be
illuminated on a scale to correspond
with their size and the means of their
owners, but that no place of business
should be without some effort at special
lighting.

(Continued on Page Four.)

Auto Parade a Big Feature;
Line of March Is Announced.

Almost every automobile owner in
the Pikes Peak region and scores of
nonresidents who are visiting here with
their machines, will be in the big deco-
rated automobile parade to be held
Monday afternoon in the opening day of
the big Colorado Springs carnival, accord-
ing to reports from the auto commit-
tee, of which J. V. Donaldson is chair-
man. The headquarters opened last
week at 326 North Tejon street are
being visited daily by numbers of the
automobileists who intend to decorate
their cars on an elaborate scale, and
ready assistance is being given all
quirers by the ladies in charge, who
have samples of decorative designs and
materials. The committee wants to
have every auto in the district in line,
and to attain this end takes occasion
to point out that all need not go to the
trouble of decorating their machines
elaborately. For those who do not
care to enter the contest for one of the
silver cups offered in the several classes
of decorated machines, all that the
committee will expect is that the car-
nival, with the colors of the carnival,
orange and white, displayed conspicu-
ously. There is, therefore, no excuse
for any auto owner remaining away
from the big parade.

Special Cup for Nonresidents.
In the nonresident class, seven stars
already are represented in the entries,
and a special silver cup is being offered
as a prize for the best decorated auto-
mobile among these entries. It is hoped
that every nonresident will enter the
contest or at least have his car in line,
even though decorated with nothing
but simple ribbons in orange and white
or the national colors.

Two handsome silver cups are of-
fered as prizes for the first and second
best decorated auto in any class, one
cup for the best decorated car using
either artificial or natural flowers, one

SEATTLE, Wash., July 24.—Suit was
filed in the United States district
court today by counsel for the Bunker
Hill Smelting company against the
St. Paul, Minneapolis and Manitoba
railway company for possession of the
land in southeastern county, alleged by
the plaintiffs to contain over 15 copper
claims, a smelting plant and
other property valued at more than
\$500,000. There is a dispute over the
value of the land for mineral purposes
but there is no conflict of opinion as to
the enormous value of the water
rights which may be developed on the
land. The land is at Bellevue on the
Sackomaw river. The government is
negotiating with the smelting com-
pany in the present suit.

The land is now claimed by the
Bunker Hill Smelting company which is a
branch of the so-called "water power
trust," alleged to have gained con-
trol of nearly all the water power in
the Pacific northwest. The land was
deeded to the power company by the
St. Paul, Minneapolis and Manitoba
railway company to which it was
patented by the United States.

The complaint in the suit charges:
That Thomas A. Benton, agent for
the railway company, some years ago
secured a land grant from the govern-
ment covering land in the Dakotas,
and other states.

That subsequently a lien land bill
was passed by the congress, under
which the defendants in 1905 aban-
doned the Dakota land and took up
land in the state of Washington.

That in 1907 this land through fraud
practiced on the part of the defend-
ants was clear titled and patented to
the defendant company.

Charges Fraud in Affidavits.

That fraud was contained in sworn
affidavits made by the defendant com-
pany's agent to the effect that the
land was nonmineralized and was not
claimed by any other parties.

What is alleged to be prima facie
evidence of this fraud is the fact
that this land agent filed on sections
16 and 36, where a matter of fed-
eral law these sections are distinctly
set apart for school purposes. These
lands subsequently were restored to
the state of Washington. The com-
plaint alleges that prior to 1905, the
Bunker Hill company had acquired 15
mineral claims in Spokane county and
had done \$500,000 worth of devel-
opment work thereupon, cutting tun-
nels, erecting power plants and so
forth.

The land office in 1907 directed that
all protesting claimants should be
notified that their protests would be
heard but for some reason unexplained
the plaintiffs did not receive this noti-
fication and in fact did not know un-
til 1910 that patent had been grant-
ed to the railroad to mineral claims
upon which they were working and
had applied for patent.

In the meantime the land has been
transferred to the Cascade Power
company which filed an answer to the
government's suit setting up that it
was an innocent purchaser of the land
and that the land contained no min-
eral.

FILES PETITION FOR WRIT
OF MANDATE AGAINST JUDGE

SAN FRANCISCO, July 24.—In an
attempt to bring the San Francisco
"graft" prosecution cases against in-
dicted officials of the United Rail-
roads to an immediate trial, attorneys
for T. J. Ford, one of the men
accused, submitted a petition for a
writ of mandate against Superior
Judge Lawrence in the district court of
appeals here today. Ford seeks to
compel an immediate hearing or have
the cases dismissed.

Will Travel Slowly.
Automobiles in the parade will travel
at a rate not to exceed 10 miles an
hour, and will be started 50 feet apart.
It is suggested that if every machine
driver sets his speedometer at eight
miles an hour, this distance will be
maintained uniformly throughout the
parade and a much better showing will
be made. The line of march was de-
cided by the committee at a meeting
yesterday afternoon, as follows:
Starting on North Cascade avenue at
Glenn's sanatorium, down the west
side of Cascade to Vermijo, east on
Vermijo to Nevada, north on Nevada
to Madison, west to Tejon, south to
San Rafael, west to Cascade, south to
Cochise, east to Tejon, south to
Cochise, east to Weber, north to
Pikes Peak, west to Cascade, north on
Cascade to disband, as desired.

All automobiles are expected to be
in position on North Cascade avenue
north of the Glenn's at 10:30 o'clock
and at 11 o'clock the start will be
made. The classes for the various ma-
chines and the divisions of the parade
will be arranged and announced later.
There will be two classes—gasoline and
electric cars—and nonresidents will be
grouped according to the several states
from which they hail.

WASHINGTON, July 24.—In what
are known as the Spokane-Reno-Pa-
cific coast cases, the interstate com-
merce commission today ordered ma-
terial reduction in freight from the
east to points between Denver and
the western terminals of the trans-
continental railroads. For many
years the railroads have exacted from
shippers to intermediate points such
as Spokane and Reno, higher rates on
eastern freights than were charged
for the much longer hauls to Seattle,
San Francisco and other Pacific coast
points.

The theory has been that the rail-
roads must meet water competition to
the Pacific coast. The higher rates,
to intermediate points, arbitrarily
fixed, have been defended by a com-
parison with the coast rates, plus a
theoretical back-haul from the coast to
the inland stations along the line.

Eliminates Backhaul Rates.

The commission recognizes the right
of a railroad to meet water competi-
tion to Pacific coast ports, but prac-
tically wipes out the backhaul rates
to Inter-Rocky Mountain territory.

It lays down what it considers would
be fair and just rates to various
freight zones in the west, and gives
the railroads until October 15 to ad-
just their tariffs accordingly.

The commission also lays down the
important principle that hereafter
commercial conditions more than the
will of every railway traffic manager
shall control rates on trans-continental
transportation.

The decision is of far reaching im-
portance. They affect directly all
freight rates between the Atlantic
ocean and the Pacific coast. Particu-
larly they affect the rates in the ter-
ritory lying between Denver and Pa-
cific coast points. Hereafter the rates
paid by shippers will be governed by
a strict interpretation of the long and
short haul clause.

PITTSBURGH, July 24.—In a riot to-
day between miners of the Mansfield
mine of the Pittsburgh Coal company at
Glendale, an isolated portion of Al-
legheny county, three constables, three
county detectives and a score of min-
ers were injured, several probably fa-
tally. Fourteen men and several wom-
en have been arrested. All were
held in \$1,000 bail, on a charge of
killing.

Three of the injured are suffering
from bullet wounds. The others were
either stabbed, stoned or beaten with
clubs.

A factional dispute, an outgrowth of
election trouble among the officers of
District Number 5, United Mine Work-
ers of America, has been in progress
at Glendale. Today three constables
arrested a miner who had almost
beaten another to death. The news of
the arrest spread rapidly. When com-
ing from Glendale through an isolated
country near Heidelberg the officers
were attacked. They fired into the
mob, but were soon stretched out un-
conscious by bullet or club.

During the fight two county detec-
tives arrived. One of them dropped
with his face crushed from a huge
stone, while Detective Inkstip sus-
tained a fractured skull. At the prison,
a foreigner was shot through the head
by the man who tried to rescue him.

Fire on Physician.

Within a short time the news of the
fighting had spread to the mine and
members of the factions rushed to the
scene. The battle was furious. The
unconscious form of J. J. Chivers, one
of the constables, was badly beaten
and then thrown over an embankment
and shot at. Chivers will die.

In the midst of the uproar Dr. J.
Hanna of Carnegie, Pa., came along
in an automobile. While the miners
fought each other, the physician car-
ried three of the officers to his ma-
chine. Before he could rescue the oth-
er two the mob caught sight of him
and Dr. Hanna escaped under full
speed with bullets flying about his
head.

Several hours after the fight started
a large force of police from Carnegie,
Heidelberg, Glendale, Bridgeville and
additional county officers reached the
scene. Fourteen of the men said to
be ringleaders and the woman, Katy
Franz, were arrested and lodged in the
Heidelberg jail.

Late tonight conditions were quiet.
Many officers have been sent to the
mine to guard against trouble to-mor-
row.

Chicago Convention Devising Ways
and Means to Induce City Folk
to Try Simple Life.

CHICAGO, July 24.—"Back to the
farm" is the slogan of the commis-
sioners of agriculture, state immigra-
tion officials and national economists
who are here attending a convention
called to devise ways and means of in-
ducing inhabitants of large cities to
become interested in bucolic pursuits.
It is proposed to establish a bureau
in every large city where information
regarding farm lands and the possi-
bilities of profit by tilling the soil may
be distributed.

LONDON, July 24.—The last act
of the parliamentary revolution was
ushered in today with a revolutionary
scene. For the first time in its history,
the House of Commons refused to listen
to a speech by the prime minister. For
the first time in its history the speaker
was compelled to invoke the rule which
empowers him in case of grave disor-
der to declare the sitting adjourned
on his own responsibility.

No such hostile passing have been
given since the 19th century, which
traditionally carries on its debates with
chivalrous courtesy since the stormy
"trailer" was the most frequent, but
with "Redmond," Patrick Ford and
"American dollars" often distinguish-
able.

Again and again the prime minister
tried to speak, but his voice was
drowned. He spoke a few broken sen-
tences, a word or two of which could
be heard. Finally his mouth hardened
and he glared at his tormentors like a
lion at bay—an impressive figure, with
straight-out features, flushed with
anger. He closed his manuscript and
cried, "I am not going to degrade my
self. I shall simply state the condi-
tion."

Prime Minister Asquith, on left, and A. J. Balfour, leader of the opposition
to the veto bill.

days of the Gladstone home rule bills.
Probably there has been no such pas-
sage in the American congress since
the reconstruction era.

During the three-quarters of an hour
Mr. Asquith rose at short intervals and
read a sentence or two from a manu-
script only to be overwhelmed by jeers,
hootings and cries among which

was "The government has ar-
rived."

The leaders in the outburst against
(Continued on Page Two.)

NEW YORK, July 24.—Physicians
at Bellevue hospital reported tonight
to the board of health the presence at
the hospital of another case which
they fear is Asiatic cholera. The sick
man is Edgar Heilmann, an orderly
who attended Manuel Bermudez, the
Spanish sailor who developed cholera
at Bellevue and was removed to
Swinburne island.

One of the symptoms of cholera has
already appeared in aggravated form
and a bacteriological examination has
been begun.

At quarantine where Bermudez and
the other victims are improving, the
outlook is regarded as bright. The
steamer Perugia was given a clean
bill of health and released today. The
bacteriological examination of the
Principe Di Piedmonte is progressing
favorably and the passengers of the
Moltke will be released tomorrow.

Fear of an outbreak on Staten island
was allayed today when the quarantine
was lifted from two families in a house
from which Patrick F. Cushing, the
former Hoffman island watchman,
was taken two weeks ago to Swinburne
island, where he died.

Friends of Senator Hitchcock were
bust the entire evening in an attempt
to confine the resolutions to national
and state issues, on which all factions
were agreed.

EFFECT BANK MERGER

FORT COLLINS, Colo., July 24.—At
a meeting of the stockholders of the
First National bank and the Fort Col-
lins Bank and Trust company today,
a merger was effected of the two in-
stitutions to take effect immediately.
The new organization will be known as
the First National bank and will re-
tain the capitalization of \$100,000.

C. R. Welch, former president of the
bank and trust company will be presi-
dent of the consolidated concerns,
succeeding Senator W. A. Drake, who
will be first vice president. T. S. Jones,
former cashier of the bank and trust
company will be cashier of the insti-
tution.

CRIPPLE CREEK, Colo., July 24.—
The coldest July weather ever expe-
rienced in the Cripple Creek district
was felt here today. At 7 o'clock this
morning the thermometer was 11 de-
grees above the freezing point. At
9 o'clock tonight the mercury had risen
to 54 degrees.

Tourists however, against whom resis-
tance in the hotels rather than explore
the mines.

SIoux CITY, Iowa, July 24.—A se-
vere drop in temperature has reigned
in this section. The thermometer
dropped to 52 last night.

WICHITA, Kan., July 25.—(2 a. m.)—
Fire which started late last night de-
stroyed one main building of the state
hospital for feeble minded at Win-
field, according to reports reaching
here. No lives were lost, although
close to a thousand children are con-
fined in the institution. The fire
started from electric wires in the
northeast corner of the main hall. Wa-
ter pressure is low and the fire may
yet gain ground.

Few details are available. Soon after
the fire started, however, alarming re-
ports were given out to the effect that
several of the buildings had been
burned and that the loss of life would
be heavy and it was some hours before
these were proved erroneous.

The institution is located two miles
outside of Winfield and telephone com-
munication was "destroyed" at the out-
set. This is what caused the unfounded
rumors of heavy loss of life and prop-
erty to gain ground.

No estimate on the actual property
loss has been received.

RES TO BREK AT
DEAF AND BLIND SCHOOL

J. N. Watkins, colored, was arrested
by the police while trying to break into
the Deaf and Blind school at 2:10
o'clock Tuesday morning. R. G.
Allen, one of the superintendents, turned
in the alarm. Watkins was captured
in the act of trying to pry the screen
off a window on the side of the
building.

When brought to the police station
and questioned, the negro was very
reluctant about telling of his actions
and intentions. He made no effort to
explain his presence at the building.

"ANTIS" MAJORITY 6,104

DALLAS, Tex., July 24.—Tonight
the antiprohibition majority in the
statewide prohibition election held
Saturday stands 53,104, a figure too
large to be overcome by the unreported
vote, according to figures compiled by
the Dallas News.

The total vote to date against the
amendment is 234,101; for the amend-
ment 181,007.

The News figures the final count
will show the majority against pro-
hibition to be more than 6,000.

NEBRASKA G. O. P. LEADERS
FAIL TO GET TOGETHER

LINCOLN, Neb., July 24.—The
Taft and LaFollette factions of the
Nebraska Republican organization,
failed tonight to get together on a
plan of action for tomorrow's state
convention despite the repeated efforts
of leaders to effect a compromise.

Victor Rosewater of Omaha, national
committeeman for Nebraska and leader
of the Taft forces, reached Lincoln late
today and used his influence to har-
monize the two elements.

"Insurgent" Republicans met in caucus
and adjourned until 3 o'clock to-
morrow without definite action.

"Insurgent" tonight claimed that
one-half of the delegates are opposed
to an endorsement of President Taft
and declared that there will be no
such action by the convention.

Endeavors to endorse President Taft,
say the "insurgents" will be met by
counter attempts to present an in-
dorsement of Senator LaFollette.

Never an Armistice.

"There was never an agreement or
armistice," Mr. Arbuckle said. "There's
likely to be an outbreak any time."

"Did you ever have an interview
with C. A. Spreckels, owner of the
Federal Refinery?" Asked Representa-
tive Madison.

"Yes, I wanted him to join in the
trade laboratory I was establishing.
He would not. I think because the
American company was in it. I told
him he was foolish, that he was losing
money and there was no use biting
off his nose to spite his face. We had
all lost money by the system of sugar
refining. That's all our interview
was about."

Mr. Madison said he read in the
minutes of the American Sugar Re-
finery company entries showing that
the trust loaned between \$4,000,000 and
\$5,000,000 to the Woolson Coffee plant
at Toledo, that the company had
charged off \$700,000 to profit and loss
account and that the fight against
Arbuckle had cost the trust even more
than that.

"So the American is still going after
trade the way it used to?" asked Mr.
Madison.

Used Any Kind of Weapon.

"Not so much as formerly. When
Havemeyer was alive, he would not
stop at anything. He would use any
means."

(Continued on Page Ten.)

Committee Sees Copy of Agreement Between Great Steel Companies

WASHINGTON, July 24.—When the House steel trust committee resumed its session today Chairman Stanley put in the record a copy of the ironclad agreement by which the Steel Plate association of the United States, was entered into November 9, 1909. The agreement has been in possession of Chairman Stanley for some time and a number of witnesses have been questioned regarding it. Eleven great steel companies entered into the agreement and apportioned among themselves all shipments of steel plate.

Notwithstanding that the agreement was burned and only came to light because a Philadelphia printer saved a copy from the flames, the committee sought corroborative evidence that the Steel Plate association did exist after the incineration of the tell-tale document.

The steel company that dared violate the agreement laid itself liable to heavy penalties and it is said that fines of \$1,000 frequently were imposed on members of the combination when complaints were filed with the executive committee. Each firm was required to make monthly sworn statements relating to shipments, rolling production, etc., and any member who shipped more than his apportioned amount was required to pay a penalty on each pound of such excess, the money thus collected being apportioned among the members who did not ship up to their allotted share.

The agreement showed the following apportionment of shipments at allowable by the various companies party to the agreement: Carnegie Steel company, 46.33 per cent; Jones and Laughlin, limited, 4.75; Illinois Steel company, 11.00; Crucible Steel company of America, 4.50; Otis Steel company, 2.50; Tidewater Steel company, 2.00; Lukens Iron and Steel company, 1.50; North Brothers company, 1.00; Central Iron and Steel company, 8.00; American Steel and Wire company, 5.50; Glasgow Iron company to the extent of sales and up to 40,000 tons should it be able to accomplish this prior to December 31, 1901.

Debts of members of the association were required to be paid by check drawn to the order of T. Mellon and Sons, Pittsburgh, to the credit of the association. The agreement included a provision for the payment of the cost of enforcement of the association's rules to the members, but any member unable to produce his full allotment at the end of the year forfeited such unproduced tonnage which was divided pro rata among other members of the pool.

(Continued From Page One.)

kind of weapon that he needed. He cared for nothing.

Wasn't the fierceness of the sugar war qualified after 1905 when the American decided to lose any more money in the conduct of its coffee business?

"It was not so fierce afterwards," Mr. Sprickles says you suggested to him, after a meeting with Hays, that he should limit or reduce his output. He also said you were reducing your output. Is that true?"

"Sprickles used to tell me his troubles with the American and I tried to smooth them over, but I never asked him to limit his output. Lots of sugar men came to me, but I always told them I didn't talk to me about limiting their output. I remember the Sherman law. Of course eventually every one had to reduce as the country was overstocked."

"There has been no agreement," he added, "but I will admit that there has been a friendly feeling to us. It is much better."

(Continued From Page One.)

know what is going on and you can't put it through if "Manny" Abraham votes for Hopkins tomorrow, I will suspend the rail call and will announce your names and will read the list of men to be bought. If you try that, that is what I will do."

"That Roger Sullivan had been subpoenaed to go to Springfield. His train was due to arrive about midnight. He founded up his followers and told them he would blow them out of the political waters if they attempted such a thing."

Sent \$30,000 to Springfield.

Mr. Keeley said Raymond told him this story prior to the Lorimer election and that \$25,000 or \$30,000 was reported to have been taken to Springfield. He read from a memorandum dated on September 21, 1908, Representative Copley and John M. Glavin came to his office, that Copley and Hopkins came from the same town and that they "hate each other heartily and viciously." The witness produced a memorandum of what Copley had said. It was to the effect that Daniel Byrnes, formerly of the Chicago Northwestern was the man who tried to "put through the deal," and that the money had been taken to Springfield by a resident of Wheaton, Ill.

Mr. Keeley testified that the Wheaton man was Mr. Blount. According to the memorandum Copley said that he had called upon Governor Denison and Denison had agreed to call in 20 of his Republican allies and if the Democrats voted for Hopkins to have these 20 switch from Hopkins.

Mr. Keeley said he sent a list on May 8, 1910, to Hines and E. S. Conway, asking about the Lorimer contributions. Mr. Conway said he knew nothing about them.

Hines Threatened Libel Suit.

Mr. Hines, the witness said, "declined to answer. He came to my office that night, with Mr. White, asked if this list of questions was a joke, said he had a reputation in Chicago and that these questions were insulting. He told me he would sue me for libel if I printed anything that reflected on him. I replied I would print the truth and that the

political hatred engendered by the veto bill made today's session the stormiest in the memory of the oldest member. Every means short of physical violence was successfully used to prevent Mr. Asquith from explaining the views of the government. So violent were the opposition members and so indignant were the ministerialists that the speaker, after two hours, decided to suspend the sitting to obviate graver disorders.

The members dispersed amid a scene of violent excitement, shouts of "traitor," "forward," following the prime minister as he departed, to which ministerialists hurled back "you are defeated," "we will win."

Asquith Issues Statement.

Mr. Asquith tonight issued to the newspapers a summary of the speech he was prevented from delivering. In it he contended that the principle of the majority of the bill had been before the people at two elections. By no form of referendum device could the opinion of the electorate have been more carefully ascertained. He said:

"The government has accepted the important amendments in the house of commons, the purpose of the lords' amendments was to set the machinery aside. The government had proposed specifically to describe what were finance bills, the lords proposed to create a committee which the premier described as a junta to determine what were finance bills and what were matters of great gravity—whatever that might mean—which should be put before the country by referendum. There was not a great budget of the last 70 years which could not possibly have been thrown out by such a junta."

"When you have a Unionist majority in both houses," continued the prime minister, "the whole thing becomes a dead letter. Measures of the most far-reaching effect may be passed in defiance of public opinion and over the heads of the electorate. You live under an unchecked and undiluted single chamber government; but with the Liberal government in power, you would have a house of commons, fettered by all its predecessors, in control of finance, and in all cases where an irresponsible and nonrepresentative body might be tempted to pass measures determining every detail of life will be settled only by referendum."

Determined to Pass Bill.

"Those amendments," added Mr. Asquith, "taken as a whole, amount to rejection of our bill."

The opposition constitutional writers and the history of the passage of the reform bills by William IV., he gave his promise to create enough peers to insure the passage of the present bill. A. J. Balfour, leader of the opposition, in reply to the speech the premier was unable to make, received a quiet hearing. He was somewhat apologetic. He went on to denounce the policy of the government, when he was interrupted by the home secretary, Winston Spencer Churchill. Mr. Balfour turned hotly upon the home secretary and said he remembered him as the ringleader of a gang of disturbers, who, when an unconstitutional question was at stake, kept a minister standing an hour without allowing a word to be heard.

Mr. Balfour reminded the house that the parliamentary act had not been rejected by the house of lords. **Charges Misuse of Crown's Prerogative.**

"I frankly regret that I was unable to hear the prime minister," began the opposition leader. "Everybody will understand that such proceedings as those in which his majesty's ministers have indulged cannot but excite the deep and passionate feelings of the great mass of the community."

"Nevertheless my own feeling is that however deep and passionate may be the resentment produced by that line of policy, however deep and just may be the indignation which we feel against those responsible for it in this house at any rate, it is desirable that we should discuss them."

Here Home Secretary Churchill interrupted with "Who set the example?"

The Unionists advised Balfour to ignore Churchill but the leader declined the suggestion and said:

"I remember him when he was the ring leader of a gang of disturbers."

Balfour continued:

"The government has by this one stroke misused the prerogative of the crown to destroy the second chamber. The premier has arrogated to himself, by the advice which he gave the crown, the powers which no republican dictator has possessed. He has put himself above the constitution."

Sir Edward Grey, the foreign secretary at this point, moved an adjournment. Frederick E. Smith tried to speak but the radicals howled him down. Finally seeing the uselessness of attempting to stem the torrent, the

speaker suspended the sitting until tomorrow.

May Split Conservatives.

It was the young members of the "last ditch" Unionist faction who carried on the tumult. The majority of their colleagues regret it. They fear that it will complicate the situation by increasing the determination of their opponents and alienating the sympathies of the country.

The demonstration was wholly unexpected and all Conservatives recognize tonight that their party is facing an extreme crisis which may result in a split and which will leave it, instead of a strong minority, a hopeless minority.

Mr. Balfour was to have addressed a meeting of his constituents tomorrow when it was expected he would declare his policy, but tonight he sent a letter saying "The unexpected turn of political events have taken in the last few days—seven hours—has thrown upon me a special burden of work which makes it scarcely possible for me to undertake the additional exertions involved in a great meeting in the city. I venture to ask that the gathering may be postponed to a more convenient, though I trust not distant date."

King George Takes a Hand.

LONDON, July 24.—King George has actively intervened in an attempt to steer the warring political factions to a peaceful goal.

None is more anxious than he to avoid swamping the historic house of peers with a battalion of new creations, and if his personal influence can effect it he will arrange some plan for overcoming the present deadlock. His majesty today gave audiences to Premier Asquith, A. J. Balfour, leader of the opposition in the house of commons, and Lord Lansdowne, the Unionist chief in the house of lords. It was understood that his majesty would see other leaders later in the day.

Meanwhile the political situation is so out of gear that the king postponed his intended departure for Goodwood, where he was going this afternoon to visit the duke of Richmond and attend a four days' race meeting.

SON BURIES MRS. PORTER

ST. LOUIS, Mo., July 24.—The body of Mrs. Katherine Porter, divorced wife of Selwyn C. Edgar, zinc-smelter magnate, arrived here from Chicago this morning. It was buried later in the day in the lot of her brother in Bellefontaine cemetery, beside that of her father.

Selwyn C. Edgar, Jr., whose telephone message from Farrington, N. Y., interrupted preparations of the woman's employer in Chicago for a funeral there, accompanied his mother's body here. Mrs. Porter's sisters and brothers attended the funeral with her son.

**New Cure Cures
Aches and Pains**

"Gets-It" Gets It; First Time Proves It

No More Corn Cures That Feel Like This
Beats them all, the new corn cure that corn-possessed people have been looking for ever since the age of shoes. Does it really do the work? Well, just one trial will prove it.

The name of this his surprise is "GETS-IT," because it gets it. You don't have to wrap your toes in bandages. There are no plasters, no salves, absolutely can't hurt or make raw the true flesh as many other corn "things" do. If it gets on the skin, it won't, can't hurt or injure the flesh. Apply it in two seconds. It's guaranteed, or your money is refunded.

Your druggist sells "GETS-IT," 25 cents per bottle, or direct if you wish, from E. Lawrence & Co., Chicago, Ill. Sold in Colorado Springs by D. V. Boucher Drug Co., and Korameyer Drug Co.

Tribune building was worth \$1,500,000, if he sued he might be able to use it (the building) in his lumber business.

Mr. Keeley said he sent the same questions to Roger Sullivan explaining that I had been his friend, but if he was in this matter tried him, for I was going to treat him just as I did the rest and I thought the proof was about to come in."

Mr. Keeley insisted that it was upon advice of counsel that he had not told the receivers Lorimer committee about his knowledge of the story that Hines asked Funk to send a Lorimer contribution to Edward Tilden.

Senator Kernon suggested that a partner of Mr. Austin, Mr. Keeley's counsel, was counsel for Tilden, and for the whole interest, which were reported to have contributed to a "jackpot." Mr. Keeley said he did not doubt Mr. Austin's integrity. Mr. Keeley said the existence of a corruption "jackpot" was common gossip.

Mentions President Again.

Edward Hines started the committee men by testifying that Representative H. S. Boutell of Illinois, now American minister of Switzerland, told him that President Taft regarded Lorimer as an acceptable senatorial candidate, was anxious to have him elected and would be very glad to assist in his election.

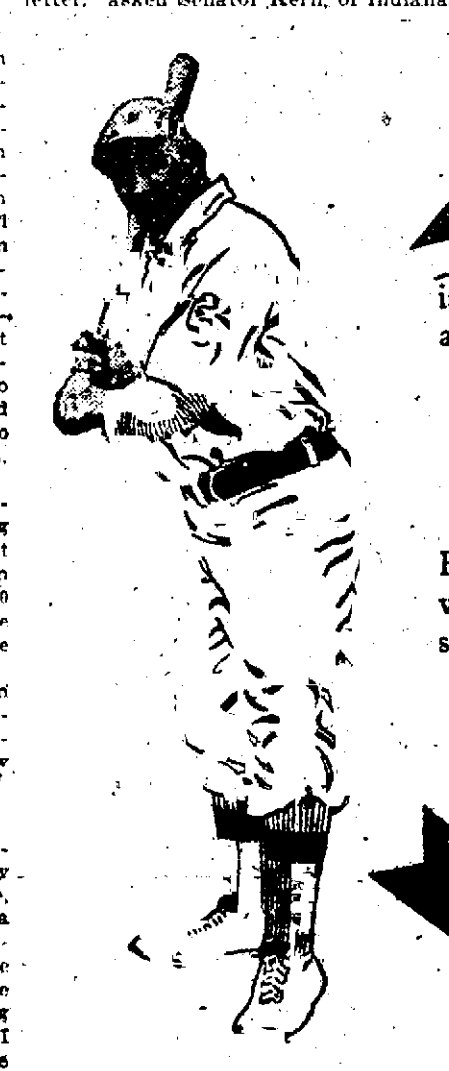

Today's session of the committee began with Attorney Hanes, counsel for Senator Lorimer, questioning Hines further about his trips to New York last winter when the Lorimer election issue was pending before the Senate. Hines testified that on one of these trips he called on E. H. Gary of the United States Steel corporation to see about the price of steel in a Colorado iron company. Suddenly, at the instance of his counsel, Mr. Hines produced a sheet of paper without letter head and without signature or date but which Mr. Hines swore was in Mr. Boutell's handwriting. The little sheet contained these words:

"I should like to have the senator know who was the only man in Washington who went to the President in his behalf and bring off the goods."

Mr. Hines declared that the senator referred to was Senator Lorimer and that his election was the subject of note. Mr. Hines declared that Mr. Boutell said he had gone to see President Taft and had told him that Lorimer seemed to be the only man on whom the factions could unite. Mr. Hines continued, "Mr. Boutell said that after he told the President of Lorimer's capabilities, he (the President) said that he was very anxious to have a senator elected from Illinois and that Lorimer was very acceptable to him and that he would do all he could to assist in electing him."

Met Boutell Going to White House.

"When did you find this supposed letter," asked Senator Kern, of Indiana.

"I found it yesterday in going through my papers."

"Did you have it when you testified a few days ago?"

"Yes."

Hines testified that Mr. Boutell's talk with the President was two or three weeks before Lorimer was elected.

"I know the day," declared Hines, "because I met him on the way to the White House. He said that he was going to the White House to tell the President that it looked as if Lorimer was the only man on whom the factions could unite and to ask the President to help him."

"Was he going to tell that the Democrats would vote for Lorimer?" asked Senator Kern.

"I think not. We thought then that the Republican factions could unite on Lorimer."

Mr. Hines, in his previous testimony, had said that former Senator Aldrich told him that he was anxious to have Lorimer elected. Mr. Aldrich last week testified that he told Hines the President merely said Lorimer was "not objectionable as a candidate."

CAVEINS KILL FOUR

MUSKOGEE, Okla., July 24.—As the result of four caveins this afternoon on the line of a municipal trunk sewer, four persons are dead, six are injured and seven are missing. Two hundred workmen witnessed the accidents.

Two caveins coming almost simultaneously, buried four men, who lost their lives. While other workmen were attempting a rescue two other caveins caught 13 men.

DIVORCES FORMER PRINCESS

PARIS, July 24.—The civil court today issued a decree of conditional separation to M. Richard and Madame Richard, the former Princess Decinsky, who was Miss Clara Ward of Detroit, Mich. The decree provides that the parties shall live apart but does not permit either to remarry. The decree was granted on the request of the husband.

NEW CUSTOMS CHIEF

WASHINGTON, July 24.—Frank M. Hubbard was today appointed chief of the customs division of the treasury. He succeeds Charles P. McGonigley, who left to take charge of the customs affairs of the American Sugar Refining company.

DEPOT BURGLARIZED

The Denver & Rio Grande station was entered Saturday night and two grips and contents, valued at about \$15, taken. It is thought to be the work of tramps who entered through a window which was apparently unlocked. Other articles of value were left untouched.

ACCIDENTALLY SHOT

J. M. Harris, of Coal, Kan., accidentally shot himself with a rifle while waiting for a car at Dick's place recently. Mr. Harris had just returned from a three day trip to a mining camp in the mountains, and was leaning on the gun, which was resting on his right foot. After the wound was dressed Harris was taken to St. Francis hospital.

HOAG WINS OUT

F. S. Hoag of Pueblo, formerly of this city, has won his fight to secure a seat on the state railway commission, according to a decision of the Denver district court. Hoag was appointed to the office by Governor Shafroth, and George Kandel, of Denver, was elected by the people. The court ruled that an act of the legislature of 1909, making the commission an appointive body, revoked the law of 1907, which provided for the election of members by popular vote.

MILLION-DOLLAR CIRCUS PARADE

Forepaugh and Sells Brothers Have a Wonderful New Pageant.

When the great Adam Forepaugh and Sells Brothers' circus comes to Colorado Springs on Tuesday, August 8, it will present in the morning upon the public streets an entirely new feature parade that cost \$1,000,000 to build. It will be seen here exactly as it was presented on the boulevards of New York city, where it was declared to be the greatest open-air spectacle that had been seen there in fifty years.

More than half the elephants in America, 600 horses and over 1,000 people take part in it. In panoramic sequence it depicts all the regal splendor of the world's kingdoms from antediluvian days on up to the fall of Rome. Everything shown was built in the factory workshops of the circus near Liverpool by the best designers and artists of France and Italy. The hundreds of coaches of state, planquas, oriental howdahs, carriages of war, tableaux floats, thrones, paradas and hand chariots are hand carved and burnished with pure gold leaf. The harness is silver mounted. The flags, banners, scarfs and standards are expensive works of Japanese art. The costumes are from the looms of France.

The children are delighted with the wonders disclosed by the fairyland section. All the characters of child lore are to be seen riding on golden chariots or floating in dazzling bubbles of fine spun glass. There are living scenes from Alice in Wonderland, the Water Babies, Gulliver's Travels, the Arabian Nights, Robinson Crusoe, Aladdin and his Wonderful Lamp and Jack and the Beanstalk. The children's section is led by the sun god riding majestically on a silver cloud.

For the contemplation of older minds there are pictures from ancient folklore, mythology and Rhine legends. Among them are tableau stories of Lohengrin and the Magic Flute, the Flying Dutchman, the Arabian Nights, Philomena and Baulis, the Prince and the Pauper, and Sigmund and his sword of fire. Such scenes as Tim O'Shanter's ride and Rip Van Winkle's experience with the mountain gnomes add a spice of humor to the display.

And the parade is a genuine congress of nations. From the South Sea Sea, from the royal men and women of European and Asiatic courts, there is not a type of the human race that is missing. The characteristic music of the various peoples of the earth is represented by great bands of musicians, while the parade is accompanied by a full orchestra of brass, reeds, drums, and bugle corps, castnet ballets and savage chanters.

A WONDERFUL SIGHT

Aside from the unequalled scenic grandeur of the trip, the Cripple Creek district itself is "one of the world's famous show places."

GERMANY SENDS COMMENTS ON ARBITRATION TREATY

BERLIN, July 24.—The German government has finished its study of the American-German arbitration treaty proposals and formulated its comment thereupon, which comment has been forwarded to Washington as a basis of negotiations. An official statement of the nature of the German views cannot be obtained here, but there is reason to believe, as earlier stated, that they are favorable.

INFORMATIONS FILED

In the district court yesterday direct informations were filed against Albert Martin and R. L. Perry, charging them with conspiracy to defraud Richard Krug of \$995, and also charging them with defrauding him of that amount by means of a confidence game. No time has been set for the hearing. Both Perry and Martin are in the county jail. They were arrested by the police several days ago, their alleged preparations to put Krug on a train for Oklahoma City causing suspicion. It is said that Krug was the victim of a take bet on a horse race.

An information was filed in the district court yesterday charging James Price, colored, with a statutory offense against Nettie Lellis, aged 11 years.

A warrant was issued from Justice Dunnington's court yesterday by Miss Mary A. Foley, charging George Patterson with a statutory offense.

BODY OF AMERICAN LOST IN ALPS JULY 5, FOUND

GENEVA, Switzerland, July 24.—The body of Homer Diman, the 15-year-old youth of Arlington, Mass., who was lost on the Dent Du Midi in the Alps on July 5, was found today imbedded in the ice in a crevice of a glacier on the side of Dent Du Midi. It was brought to Silvan, where the young man had been living with his mother.

MANITOU DEPARTMENT

DEPOT BURGLARIZED

The Denver & Rio Grande station was entered Saturday night and two grips and contents, valued at about \$15, taken. It is thought to be the work of tramps who entered through a window which was apparently unlocked. Other articles of value were left untouched.

ACCIDENTALLY SHOT

J. M. Harris, of Coal, Kan., accidentally shot himself with a rifle while waiting for a car at Dick's place recently. Mr. Harris had just returned from a three day trip to a mining camp in the mountains, and was leaning on the gun, which was resting on his right foot. After the wound was dressed Harris was taken to St. Francis hospital.

MANITOU NOTES

Visitors—For cleaning and pressing, see Stock's, opposite postoffice.

N. C. Bell of Moline, Ill., is here, stopping at 136 Spencer avenue.

Next Saturday, July 29, on Which Postcards
May Be Secured From Chamber of Commerce

THE ABOVE BEAUTIFUL VIEW OF MONUMENT VALLEY PARK, SHOWING A PART OF THE LAKE, WILL APPEAR ON THE POSTCARDS TO BE DISTRIBUTED FREE BY THE CHAMBER OF COMMERCE AT ITS ROOMS NEXT SATURDAY.

This will be the fifth and last day for the distribution of the cards, the Chamber body giving away 20,000 each Saturday in July. Judging from the great demand on the previous four Saturdays this month, the supply of Monument valley cards will be exhausted long before the day ends.

POSTCARD SALE

(Continued From Page One.)

handling decorative material. In addition to flags and red, white and blue bunting, the business men will make extensive use of the official colors of the carnival, orange and white, and the effect is expected to be the best ever seen in this city.

The official program for the carnival,

showing all the attractions for the entire week, is in the hands of the printer and will probably be ready for distribution by Saturday. Not less than 20,000 copies are being printed, and from the data in the hands of the committee, it is expected that there will not be a copy left at the close of the celebration, as already inquired by the hundreds have been received at the committee headquarters from those wanting copies.

In addition to the events of the carnival, the official program will con-

tain the names of all committees connected with the various events of the celebration. These are officially completed, follow:

Aviation Committee.
J. F. Layton, chairman; S. D. Burns, L. C. Perkins, Ed Wells, L. D. Thompson, R. H. Hopkins.

Executive Committee.
George H. Tripp, chairman; J. McK. Perry, secretary; Willis R. Armstrong, treasurer; Charles T. Wilder, A. G. Sharp, Ralph Goddard, D. V. Donaldson, F. C. Matthews.

Mask Ball Committee.
Lewis G. Carpenter, chairman; W. F. Douglas, D. W. Knowlton, Henry Hine, K. P. Collins, Howard Masterson, E. R. Nepper, R. L. Holland, William Metz, F. D. Bostrom, William Reynolds, Amy Adams, C. S. Kaufman, Klein, Jr., D. J. Unkelstein, J. P. Russell, Mark Rafferty, Harry Hughes, Robert H. Helley, O. Lavermore, Max W. Klein, Frank Tammann.

Automobile Parade Officers.
D. V. Donaldson, chairman; Leonard E. Curtis, chief marshal; Charles L. Turt, Charles Lansing, Lewis Carpenter, George K. Shields, Arthur S. Littlefield, Jr., and Edward Hine, aides to marshal.

General Auto Parade Committee.
J. E. Curtis, William Howbert, William Howbert, Major C. T. Lowndes, Dr. W. W. Williams, Dr. A. C. Macander, A. G. Sharp, James E. Burns, W. T. Quackenbush, E. E. Nichols, Harry Hine, C. L. Turt, Charles Lansing, Lewis Carpenter, Edward Hine, Ralph Goddard, George K. Shields and Arthur S. Littlefield, Jr.

Pioneer and Civic Parade Committee.
W. Arthur Perkins, chairman; E. W. Frost, F. L. House, John Himebaugh, Mrs. W. W. Price, Frank Corbin, E. E. Nichols, Charles Ashton, C. Perry-Snyder, P. D. McCartin, William Fanning, Fred S. Tucker and Andy Adams.

Aides.
E. M. Carlisle, F. R. Bryant, Wm. Bannan, Jr., Roy Sharpe and William Hayes.

General and Reception Committee.
J. P. Doolan, George Krause, H. C. Harrison, S. E. Nichols, C. E. Hamilton, E. J. Elrich, J. P. Sharper, E. C. Davis, J. A. Connell, R. W. Chisholm, Charles T. Pettie, H. H. Stevens, David Elliott, W. O. Brinker, J. S. Tucker, H. C. Lowe, R. G. Robbins, A. H. Hunt, F. P. Evans, W. F. Conway, James E. Burns, C. A. Pollen, C. D. Welmer, R. L. Holland, E. C. Sharer, A. J. Lawton, J. C. St. John, E. F. Lowell, M. H. Wilbur, Henry Russell, Wray, George Elston, W. S. Dunning, Samuel Kinley, C. W. Sells, G. H. Logan, W. M. Banning, Fred S. Tucker, R. M. Lathrop, D. S. Gilmore, W. H. Cundey, C. C. Hemming, L. J. Newsome, John P. Madden, Frank G. Peck, W. C. Pottinger, Dr. A. W. Campbell, S. E. Hurst, C. C. Hoyt.

Finance Committee.
A. G. Sharp, F. R. Healey, Mark Rafferty, Lewis G. Carpenter, Willis R. Armstrong, James Boynton, Frank Perkins, W. S. Crosby.

While the big event of the carnival from the standpoint of the public all over the south, middle and west, is the aviation meet in which F. O. Parmelee and Clifford Turpin, the Wright experts, will try for the high altitude record and a circle trip of Pikes Peak, there is a great deal of interest in the wild west show to be given by B. J. Ireland at Roswell park on four afternoons of the week. Mr. Ireland, with a string of 30 horses, including some of the worst cowboys of the west, arrived at Roswell park yesterday. Another string of about 30 horses is being brought from Wyoming to take part in the big show, and before the first of the week Mr. Ireland will have a bunch of 25 of the wildest steers in New Mexico on the ground.

We are prepared to make this the greatest wild west show ever held in Colorado, said Mr. Ireland yesterday, and will have on the ground the most noted rough riders, trick riders, cowpunchers, ropers and broncho busters in the west. Among our horses we have three that have never been ridden so far, although some of the most nifty and capable riders in this state have made one attempt after another. These three, which are the worst I have ever seen, are "Ridaway," "Bone head" and "Crybaby," but in addition we have already on the field such notorious outlaw horses as Iron King, Hawkeye, "Blue Nose" and "Chanticleer," all of which are well known to every cowpuncher in the west.

Month-End Shoe Sale

SID POLAND,
Champion Rough Rider of Wyoming. Poland and "Iron King," the horse on which he won the Championship at Cheyenne, will both appear in the Wild West Show to be held four days of next week at Roswell Park in connection with the Colorado Springs Carnival.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is Castoria?
Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea. The Mother's Friend.

GENUINE **ALWAYS**
Bears the Signature of
Charles H. Altshuler
In Use For Over 30 Years.
THE J. C. LAMSON COMPANY, 25 N. MURRAY STREET, NEW YORK CITY.

FRANK KING, NOTED COLORADO BRONCHO BUSTER.
"Hawkeye," the horse which King is riding, is one of the most notorious outlaws in this state, and was never ridden until King performed the feat at the last Wild West Show in Pueblo.

cowpunchers who will be here on Saturday to give a private demonstration in the presence of the executive committee of the carnival are: Ireland, Sid Poland, Jack Ashbaugh, Clare Lord, James Combs, Art Eckberg, Bill Holmes, Frank King and other equally noted

CHANGING HER FACE

(From the Household Friend.)

Any woman not satisfied with her complexion can remove it and have a new one. The thin veil of stifling half-head curls is an encumbrance and should be removed to give the fresh, vigorous young skin underneath a chance to show itself and to breathe. There is a simple, old-fashioned home remedy which will always do the work. Get a bunch of pure mallow leaves from your drugist and apply it at night like cold cream, washing it off in the morning. The mallow will gently absorb all the lifeless skin and leave a healthy and beautiful complexion, as fresh as a child's. Naturally it takes with it all such facial blemishes as freckles, tan, pimples, etc. It is pleasant to use, and should be removed to give the fresh, vigorous young skin underneath a chance to show itself and to breathe. Special interest is being taken in the band of 25 Ute Indians who will arrive here the latter part of the week from the Ute reservation near Ignacio, under the leadership of Buckskin Charley, the veteran brave who has been in the limelight on so many occasions in his younger days that he is one of the most noted chiefs in the entire United States. Not many years ago he raised quite a commotion by breaking away with a band of braves from the reservation and proceeding into New Mexico on a raid that called

for action from the forces of the federal government.

Buckskin Charley Accepts.
According to a letter received yesterday from Superintendent C. F. Werner, Buckskin at first declined to make the trip to Colorado Springs because he is entertaining "Chippeta," the aged widow of old Chief Ouray, and an old-time friend of Charley. Buckskin said he did not think it would be polite for him to leave his visitor, but when "Chippeta" consented to accept the suggestion of Agent Werner and come along, the big chief of the Utes was delighted and is now anticipating the trip with the keenest of pleasure. Little Cusino, the fair maid of the Ute tribe, is dead and the news has aroused some disappointment and sorrow in Colorado Springs, where there are many people who had a special interest in her. As a child of 6 years she was christened in this city in honor of the Casino, where with a party of Utes she spent some time during a flower carnival 11 years ago. Society ladies in Colorado Springs and Broadmoor took an interest in the pretty Indian child, who was a granddaughter of Buckskin Charley, and later sent her to a white school to be educated. Last year S. N. Nye, manager of the Open House, saw her in Denver, and was struck with her impressive appearance, refined manners and striking beauty. Agent Werner says the young lady died last winter of tuberculosis, and that the entire tribe went into mourning.

While here the Indians will be kept in tents at Stratton park and will be under the direct management of Mr. Nye, who has had much experience in this line and is personally acquainted with many of the band. Charles Craig, the artist, is well known to most of the Utes and will be of great assistance in keeping Buckskin Charley and his dusky attendants contented and amused. In the band, which consists of 11 braves, nine squaws and five children, are all the best dancers and public performers on the reservation.

Aviators Due Sunday.
Aviators Parmelee and Turpin, with their machines, are expected to arrive about Sunday, so that they will have a chance to get acquainted and to try out their machines at Roswell park before the day of the big meet, when scheduled to come up before Judge residents of the Pikes Peak region will see the first aeroplane in the district. Parmelee is the most expert aviator in the country at the present time, and General Interest centers in his attempt to encircle Pikes Peak and break the altitude record by attaining a height of over 11,000 feet, at about which the present record for high flying stands. Great things are expected from the Wright's model biplane, "the Pike," and in writing of the meet in a letter to the executive committee, Orville Wright says: "This is the only aviation meet of importance arranged west of the Mississippi for the present summer and we want to do all we can to make it the greatest ever held in point of performances. We have great expectations from our new model biplane which we have named 'The Pike' in honor of the big Peak. We never make any promises in advance of what we will do for the game has too many of the elements of uncertainty for that, but we will say for your benefit, watch the new model biplane. Parmelee has her management down to a fine point and she sails like a bird."

GREAT BRITAIN DEFENDS AN INSURRECTO GENERAL

LOS ANGELES, Cal., July 24.—Great Britain has taken a hand in the extradition proceedings against General Rhys Pryce, formerly commander of Mexican insurgents in Lower California and now wanted by the Mexican government to answer charges of murder, robbery and arson. James Bryce, British ambassador to Washington, has instructed A. Leslie Rest, assistant British consul here, to represent Pryce when the charge of violation of the neutrality laws is heard in the federal court here. Pryce's case, together with similar ones against General Jack R. Mosby and James B. Laffin, Arizona "rough rider" and Mosby's adjutant, was scheduled to come up before Judge Wellborn in the federal court today.

S.S.S.

The cause of all skin diseases can be traced to some humor in the blood, and therefore the cure of any skin trouble can come only through a thorough cleansing of this vital fluid. Salves, washes, lotions, etc., relieve some of the itching and discomfort, help to reduce inflammation, or aid in keeping the cuticle clean, but such treatment does not reach the blood, and of course can have no real curative effect. S.S.S. cures Skin Diseases of every kind because it purifies the blood. It is an internal remedy for an internal trouble, and works on the only reasonable and certain method of cure. S.S.S. removes all acids and humors from the circulation and leaves the blood stream rich, healthy and nourishing in order that it may supply the cuticle with the necessary properties to restore it to its smooth, normal condition. Book on Skin Diseases and medical advice free. S.S.S. is sold at drug stores. THE SWIFT SPECIFIC CO., ATLANTA, GA.

The 1912 HUDSON "33"

"33" Touring Car—\$1600 Complete

There are four HUDSON "33" models for 1912. A large, roomy five-passenger Touring Car, shown above—a smart Torpedo of long, rakish lines—a Roadster of unusual beauty and comfort and a Mile-a-Minute Roadster which is speedy enough to make a showing in any amateur speed or hill climbing contest. The equipment includes 32 inch tires on demountable rims, Bosch magneto and storage battery, genuine Mohair top, with complete set of curtains, wind shield, tire iron, extra Demountable tire rim, Prest-O-Lite tank, big beautiful lamps, black enameled, foot and robe rails, license number holders, tool box, running boards, tools, tire repair outfit, etc. Roadsters have special luggage box on rear, around which extra tires can be carried. Mile-a-Minute car has stern apron instead of wind shield and top safety than is possible with larger wheels.

Why the Value is Even Greater this Year

Some Extraordinary Things Have Been Done to Accomplish This Result Come See What They Are

The above is an illustration of the HUDSON "33" 1912 Touring Car. There are three other models—a Torpedo, long, low and snappy in appearance—a Roadster, handsome and comfortable, and a Mile-a-Minute car, fast enough for any amateur contest.

This cut indicates as well as can be done by picture, the great beauty of the car, which for the past year has been the most talked about automobile in America. It is impossible to show by drawing or photograph, all the improvements that have been added to the 1912 model.

The best way to understand why it is a greater value than was the 1911 car, is to know what was done to produce that result. By telling you that, you can appreciate this new value more than would be possible either by illustration or by description.

The Engineering Board of the HUDSON Motor Car Company is made up of the largest number of experts ever employed by any one manufacturer. These men are specialists in many different branches of automobile engineering. At the head of this staff of experts is Howard E. Coffin, the man responsible for the HUDSON "33."

Before this board of specialists is brought every suggestion for the improvement and betterment of HUDSON cars. Each of these experts has won his way by the work he has done. Each man knows something which others don't know. Each has done something which others have not done.

Owners Have Helped

We have hundreds of letters from owners telling their experience with the "33." What they reported was tabulated and so when work was started, we had accurate information upon which to base our plans for the 1912 car.

Each suggestion was thoroughly considered by the Board of Engineers. Then Mr. Coffin instructed these specialists to do what they could to make the 1912 car a greater value than was that of 1911. Each man was assigned to some particular work. One was instructed to add to the beauty of the car. Another devoted his time to working out ideas that would add to the convenience the car would afford to passengers.

Went To Europe For Ideas

One man went to Europe to get ideas. He visited the leading factories there and attended the great Paris and London Automobile Shows. He wanted to see how makers abroad were building their cars. He came back with a trunk full of ideas.

A specialist on carburetion went into the laboratories of the largest carburetor manufacturer and with the experts there worked out an improved system, which has resulted in greater power and economy for the motor. So enthusiastic were his tests that he called in the chemists and experts of the Standard Oil Company and had their assistance in determining what was needed for obtaining an increased efficiency from the ever decreasing quality of gasoline.

Another man, trained by long experience for that special kind of work gave his attention to improving the steering action of the car. He tested many types of springs. He drove cars over every kind of roads. He experimented with other cars to learn any advantages they might have.

The expert on factory management spent his time in the plant organizing his men, teaching them to build better. The man who had made a reputation for himself as a designer of special machinery worked out ideas for increasing factory efficiency in that direction.

No work could have been more complete than that which these men did.

All Submitted To Experts

Then Mr. Coffin called them all into session and for days the suggestions of each expert was submitted to the

consideration of his associates. In this way many additional ideas were brought out. No suggestion was accepted that did not meet with the unanimous approval of the Engineering Board. If there was any doubt about the value of any feature, it was tried out by actual tests on cars built especially for that purpose.

Then the first 1912 car was built and all the ideas adopted were proven in a service test more severe than any one would ever think of demanding of his car.

The result of all that careful, accurate planning and testing, under the inspiration of Howard E. Coffin, is the 1912 HUDSON "33."

Yet There Was Little Change

You might conclude from this that the car is totally different from that of last year. As a matter of fact however, there has been little change in the essentials of its design. In a few places the simplicity of the original model has been made even more simple. A few more parts have been eliminated and a great deal has been accomplished in the way of smoother, quieter operation. The 1911 "33" is famed as being as quiet as any car ever built.

This year sound has been made even less noticeable.

It is difficult to compare the new car with the original. But you can at a glance at the car itself, note some of the changes that have been made.

The equipment is of a much better grade. If you will ride in the two models you will observe the greater motor flexibility of the 1912 car. You can see an increased value in the quality of upholstery, in the higher grade painting, but you cannot so easily appreciate the improvements that have been made in the quality of materials, in the fineness of the metals and the character of the workmanship.

Widely Different From All Other Cars

The above comparisons have all been made with the 1911 HUDSON "33."

It would not be so difficult to show the greater value of the present model if it were considered in connection with any other automobile that you can buy under \$2500.

Last year the HUDSON "33" established such a mark for its simplicity, power, sturdiness and general value that it won its way wherever buyers gave close attention to its details.

People in all sections bought the HUDSON "33" because it was designed by Howard E. Coffin. Most of these buyers were persons who had owned cars of his earlier models. They knew from what he had done before what to expect from his latest car. The first day the HUDSON "33" was put on sale orders were taken by dealers throughout the country for 887 cars. These were bona-fide sales that were made without, in most cases, even a demonstration.

2,000 Cars Oversold

At the close of the season there were orders on hand for more than 2,000 in excess of the number we could build. Even before a single 1912 model was shown dealers had deposits in hand from their customers who thus had assured themselves an early delivery of the latest model.

These are important indications of what car it is best for you to choose. Nothing quite so thoroughly shows the value of an automobile as the way the public takes to it. Its sales in any one locality would indicate very little. Consider what it has done throughout the country, however, and you have the net expression of many buyers. HUDSON cars are successfully sold over every kind of road. Buyers choose the "33" because it proved to be the car best suited for all needs. As all sections are using the "33," it shows it is ideal for every requirement.

World Wide Demand

The world wide demand for the HUDSON "33"—and that statement is emphatically true—is a positive proof that it more nearly approaches the ideal car than was ever before offered at less than \$2500.

We urge all who are competent to do so, to thoroughly investigate every detail of the HUDSON "33."

But we caution those who do not intimately understand automobiles, their needs and the development that has recently been made in the way of simplicity, not to attempt to judge values in that manner.

Nothing is quite so dangerous as a little knowledge. It deceives the buyer and often results in his selecting not the best but the poorest car to be had for the money.

All Makers Give Quality—Not All, Tho, Have Engineering Cleverness

We believe all makers are building the best cars they are able to build for the money. Competition guarantees that. But willingness to furnish good quality does not assure that that is being done. Skill, experience and an efficient organization is necessary. All engineers do not possess the same degree of cleverness—or experience. Capital will buy modern machinery. It will secure the best of materials, but it will not always get the best engineering brains. It cannot even get the best out of the brains it can employ. Genius works only when it is associated with genius and workmen do their best only when directed by a recognized master.

Design is the basis of all good value. Without that, the car is only partly right. All experienced automobilists know that. Everyone in the trade knows Howard E. Coffin to be the greatest designer of automobiles this country has ever produced. Every one in the business knows equally as well that the organization which controls the HUDSON Motor Car Company has built all the cars Mr. Coffin has designed.

Each of these cars was a leader until Mr. Coffin made it less desirable by the production of a car more modern and of consequently greater value.

Millions of dollars have been put into HUDSON cars by experienced buyers, just because of their confidence in the designer, the engineers who are his assistants and the company and organization that is building the cars. These buyers have asked for no details.

Expert as some of them are, they have not depended upon their own judgment so much as they have been influenced by their knowledge of the men who are responsible for the HUDSON "33."

Choose Your Car That Way

If you accept that suggestion and then look for a car of reputation, just remember that standards of value change and that consequently the car you thought worth a few months ago, may now be selling at a loss. It is because the more modern HUDSON "33" has established a new era in motor car designing.

You will naturally want the latest. Don't be influenced too strongly by a low price, or by the statement that the motor is bigger, or other claims that are intended to obscure the main point of simplicity.

If your car has all the power you will ever need to use, that is all you need to consider. If a car can be obtained at a hundred dollars less than that at which you can get the HUDSON "33," then look for the comparative simplicity of the two cars.

If you choose the HUDSON "33" you will have satisfaction in knowing that you have the car which everyone admits to be the leader of its class to be the one advanced car of the past three years.

Why You Should Not Delay

You have your choice of many automobiles. The most desirable cars will be taken first. Last year's popularity indicates a heavy demand for this greater value of the 1912 model.

There is a limit to the number of cars the factory can produce. Since 2000 individuals were appointed last spring at not being able to get the "33," what may we not expect this fall?

By taking a "33" now you can use it all summer, fall and winter and still have an up-to-date car in the spring. Many HUDSON dealers have booked orders for the 1912 model even before they knew its details. We advise immediate action if you are to get the delivery of the one advanced car of the past three years.

HUDSON MOTOR CAR CO.,etroit

A Special Word of Importance We endorse with our capital and business future every word of the above. This we would not do if there were any doubt in our mind about the value of the HUDSON "33." Our success depends upon our knowing the automobile situation thoroughly. We have opportunities for more thorough investigation of values than any individual. The mere fact that we

THE DAY'S NEWS IN SPORT CIRCLES

THE BEARS' TROUBLE

Somehow every paragraph of the press agent's cheerful dog and pony yesterday's tussle with the Grizzlies went wrong and the Bears cleaned up on the Zooz 19 to 4 in a sad and sorrowful hour and forty minutes.

Before the engagement opened officially, those who looked pretty stout all right, but even the addition of the newspaper tiger, the demon Mr. Winkler, to the local aggregation didn't help the home boys very much. Wink was all right in his allotted sphere, back of the log, but the chief trouble was that the Bears hammered the ball the other way and he didn't have a chance to sparkle. From the time Kenworthy poked a double in the opener until the Zooz made a one-handed spear of a rally in the ninth, those Western league persons wouldn't behave. Most anybody would hit the ball on the lasopps and a flock of runs would come across the dish.

"Hit 'em where they ain't," was Denver's slogan, batty or not, and when the ball did bump up against the Zooz, inner defense it would break a finger or knock somebody on the bean. Usually, however, the ball went clear out side the lot. Twenty-one hits for a total of forty-one bases is ample proof that Denver considered the open season for doubles, triples and homers to be still on.

Even in the warming-up process the Zooz seemed to be off their balance, due largely to the support in the position of the enemy. At 3:23, when the pastime opened, the home athletes went up in the clock and didn't come down until 4:50, when the chastisement ended.

With two down in the opener, Kenworthy pushed a double to left and scored; when Beall tripped to center, the Chicago recruit kept on running and scored on the relay to catch him at third.

The argument tightened somewhat in the second and neither team scored. In the third, however, Denver opened up a notch and scored three tallies on a hit that Collins scratched through Van Stone, two errors and a hit batsman. Gail made the circuit for the Zooz in the local half. He beat out a slow grounder to Lindsay, stole second and went to third on Kenworthy's fumble. Collins, out at first, scored the only run the Zooz earned by honest toil.

The Bears threatened to break up the game in the fourth, and five singles, plus a base on balls, sent five runs across. In this round Mr. Gail caught

interest today in the open tennis tournament at the Colorado Springs Golf club centers in the finals in the men's doubles. The match will be between Bissell and Sprague against Kernochan and Wheeler.

The first named pair won their way to the finals yesterday by defeating Collins and Williams in one of the most closely contested matches thus far. Five sets were required to decide the winners, Bissell and Sprague taking the first, second and fifth. Today's card and yesterday's results follow:

SINGLES, SEMI-FINALS.
Kenneth vs. Wheeler, 4 p. m., the winner to play Carnall at 4 p. m.
CONSOLATION SINGLES.
Brown vs. Anthony, 10 a. m., the winner to play Lansing at 5 p. m.
Scott vs. Littlefield, 10 a. m.
Miller vs. Pastorius, 11 a. m.
DOUBLES, FINALS.
Bissell and Sprague vs. Kernochan and Wheeler, 4 p. m.

SINGLES.
Carnall defeated Fleming, 6-1, 4-3, 6-0.
CONSOLATION SINGLES.
Pastorius defeated Garlick, 6-0, 6-0.
Miller defeated Gustin, 6-3, 6-2.
DOUBLES.
Bissell and Sprague defeated Collins and Williams, 6-3, 5-4, 4-6, 7-3, 6-2.
Wheeler and Kernochan defeated Pastorius and Lansing, 6-1, 6-4.

LAKE FOREST, Ill., July 24.—Harry Martin of New York defeated Ward C. Burton of Minneapolis, in one of the best matches of the second day's play in the Western Lawn Tennis association's twenty-fourth annual tournament here today, after a hard contest, winning in straight sets, 6-2, 7-5.

Martin's great work in playing the line was responsible for his victory and he repeatedly crossed the northern western man with his drive. The match was replete with sensational volleying, and the placing of both men brought repeated applause from the large gallery.

Another interesting match was between C. M. Bull, Jr., of New York, and Blair Larned of Owentia. Bull won by his ability to hold the net position. His card was 6-1, 6-4.
Hugh G. Whitehead of Norfolk, Va., had little trouble winning from Frederick Copeland of Glencoe, Ill., 6-0, 6-1.
James H. Winston of Norfolk, Va., defeated another match to the victories of the Virginia contestants, when he defeated John London of the United States navy, 6-2, 6-2. Summary:

SINGLES, SECOND ROUND.
C. M. Bull, Jr., New York, defeated J. L. B. Larned, Chicago, 6-1, 6-4.
L. R. Harry Waldner, Chicago, defeated W. G. Warren, Chicago, 6-1, 6-1.
Thomas C. Rundy of San Francisco, holder of the western title, will be on hand tomorrow to defend his honors.
Miss Mabel Hotchkiss of California, women's champion, has arrived and will compete in the women's singles and mixed doubles, meeting Miss May C. Weston, former women's champion.

THE MACKMEN'S INNER DEFENSE

THE WORLD'S CHAMPION INFELD OF THE PHILADELPHIA ATHLETICS.

Now that Eddie Collins is back in the game, the stock of the White Elephants has taken a big jump. Detroit's four straight defeats last week has again put the Athletics in a striking distance of first place. From left to right, the players are Harry Fouts, first baseman, whose place has been filled at present by Melvin, Harry Baker, premier third baseman, Eddie Collins, best second baseman in the American league, and Jack Barry, sensational shortstop. They are doing things the Athletics. This group comprises the bulk of the Athletics' strength and is the dependence of Connie Mack to close up the gap between his team and Detroit's flying squadron.

WESTERN LEAGUE. AMERICAN LEAGUE. NATIONAL LEAGUE.

Two-base hits, Merkle, Almeida, Herzog, Meyers; three-base hits, Marquard, Dovie, Meyers, struck out, 7; Marquard, 7; bases on balls, off Smith 1; off Marquard, 5.

ALL-STAR PITCHERS

5-2-3 BENEZ 3h

CLEVELAND, July 24.—The All-Stars, made up of well-known American league players, defeated the Cleveland team before a crowd of 13,000 persons today. The game was played for the benefit of the widow and children of the late Addie Joss, Cleveland's plater.

The proceeds of the contest were \$12,194. The All-Stars were more consistent in their hitting than the locals and won, 5 to 3. None of the American league clubs had regular games today, the date having been set apart as "Joss day," and the other teams were drawn upon for their stars to play against Cleveland. Score: R H E
All Stars . . . 2 1 0 1 0 1 0 1 0 6 5
Cleveland . . . 0 1 0 0 0 0 0 0 2 0 3
Wood, Johnson and Ford, Street and Livingston, Young, Kaler, Blanding, Griggs and Smith, Easterly.

ST. LOUIS, July 24.—St. Joseph shut out Pueblo in the first game today in a series of three.

TOPEKA, July 24.—Buchanan was unimpaired in the pinches and Topeka won from St. Paul. Sage was hit hard at times but the locals scored three runs on a wild pitch, a double steal and a pass with the bases full.

LINCOLN, July 24.—Lincoln took the opening game of the series from Omaha in a tight pitchers' battle between Wolverton and Hall.

LOS ANGELES, July 24.—When Cherokee Tom Jones, manager of Champion Lightweight Ad Wolgast, was shown a telegram purporting to have been sent by Wolgast to San Francisco and in which the champion is made to retract his intentions of carrying out his arrangements to box Mackinac, Jones gave out the following statement:

"I am leaving for Chicago tomorrow. Ad has acted without my advice. At the weight named he would be boxing a welterweight. I will either have the match canceled or will force McFarland to make 135 pounds in two hours before entering the ring. This is the best figure that I will stand for."

Tom McCarey is all worked up over Wolgast's action and has sent him a 200-word wire imploring him to call off the Milwaukee date.

"McFarland is liable to hand Wolgast a thorough beating at this weight, and thus spoil my Thanksgiving day card as well as ruin the champion," says McCarey.

Freddie Welsh tips it off that the articles for the Wolgast-Welsh battle were not signed by Ad before the champion went away. Welsh declares that at this weight McFarland will beat Ad and feels that the Milwaukee engagement will mean the smashing of his chances at the lightweight title.

The presence of Ad of Wolgast's Los Angeles friends is being brought to prevent the champion giving away this weight to McFarland.

CADIZ, Mich., July 24.—Suit for \$10,000 was today started against Ad Wolgast, the lightweight pugilistic champion, by the father of Florence Bush, a 15-year-old farmer girl. A serious criminal allegation is made against Wolgast. After the summons was served upon him Wolgast characterized the action as a holdup and claimed the charge unfounded.

DURHAM, PUEBLO, SOLD TO ST. JOSEPH.
PUEBLO, Colo., July 24.—Pitcher James Durham of the Pueblo team was today sold to the St. Joseph club by Frank Isbell. Durham quit the local club because he was unable to win games on the home grounds which resulted in criticism by local fans.

KANSAS CITY, July 24.—Empire Clarence Owen of the American association, hit by a foul tip from the bat of Congleton of the Columbus team here this afternoon, had a bone of his right leg fractured and will be unable to officiate again for several weeks. The accident occurred in the ninth inning after two were out.

Coughlin Closes for a Game With Des Moines on Thursday

John Higgins, owner of the Des Moines Western league team, wired Alderman Coughlin of the Zooz last night that he wanted to come to Colorado Springs on Thursday, July 27, and engage the home team in the national pastime.

The game was closed by wire last night, and Des Moines will be the attraction at Zoo park day after tomorrow.

A few days ago Higgins wired that he would be unable to schedule a game with the Zooz, but he has since found that he can accommodate Mr. Coughlin and the game will be played as originally announced.

Supporters of the Zooz have not lost faith in them because of yesterday's defeat in the strong Denver team, and Des Moines will be given a good run for their money. Since meeting the Western league leaders the Zooz should recover from their tendency to become nervous, and a different story is looked for after Thursday's game.

The Lincoln club has also wired Mr. Coughlin for a game, and it is probable that they will be accommodated in the near future. The Zooz owner is ready to give Coughlin a chance to see all the Western league teams in action next week, and other games may be arranged before the season is over.

DETROIT, July 24.—Driving splendidly, even in the teeth of a terrific gale, and putting in spectacular fashion, Albert Seckels of Chicago, inter-collegiate champion, with a card of 78 for the 18 holes, leads the 153 golfers who competed in the elimination round today, which started the thirteenth annual amateur championship of the Western Golf association on the links of the Detroit Golf club.

The golfers with the 54 leading scores will compete tomorrow in the medal play qualification round, from which the 36 leaders become eligible for the championship matches.

Scores in the 18 holes made by the six leaders are:

Player	Out	In	Total
Albert Seckels, Chicago	35	43	78
E. M. Myers, Pittsburgh	40	38	78
W. H. Diddell, Indianapolis	42	36	78
W. Evans, Jr., Chicago	41	37	78
Harold Weber, Toledo	43	35	78
Paul Hunter, Chicago	42	36	78

Three pairs have now been selected for the Chicago preliminaries, McFarland and Burns from the Pacific coast; Doyle Brothers from the south, and Little and Touchard from the east.

Western doubles are being played this week in Chicago. The winners in the four-cornered tournament next month will play H. H. Hackett and F. D. Alexander, the national titleholders, at Newport on August 21.

WILDFLOWER EXCURSION THURSDAY 27th JULY KANSAS DAY

By special request of many Kansas visitors

The trip 120 miles of Colorado's most picturesque scenery through Ute Pass and the beautiful mountain resorts of Cascade, Green Mountain Falls and Woodland Park; over Hayden Divide, altitude 9,198 feet, through Granite Canon, and its 11 miles of solid granite walls towering 1,000 feet above the track, into South Park where an excellent view of Mt. Massive, highest in Colorado, and the Collegiate Range, Mts. Yale, Princeton and Harvard, with their perpetual snows, may be had.

Wildflowers. Columbines, Shooting Stars, Indian Pinks, Forget-Me-Not, Honeysuckles, Asters, Bluebells and many other varieties are out in profusion. Stop of 45 minutes is made in the Wildflower Fields to gather bouquets.

A New Feature. Stop will also be made at the Florissant Fossil Beds, where petrified specimens of Plant and Animal life of prehistoric ages may be gathered.

TRAIN. Train from Midland Santa Fe Depot at 9 a. m.; Colorado City, 9:12 a. m.; Manitou, 9:31 a. m. Home 5 p. m.

Scratching of Initials of Early No-
torious-Loving Folk in
"Public Places."

From Answers, London. Folk who scratch their all important initials—with or without hearts or other adornment—on famous buildings or such like, can now regard themselves justified. For sight-seers in Egyptians did the same thing almost countless years ago, sometimes adding little personal comments; and today these scratchings are proving vastly interesting in throwing light on ancient ways.

GRIPPLE CREEK, July 24. — Another strike, the second within a month, is reported on the Jerry Johnson, an Iron-bridge property under lease to Frank Taylor. The discovery is at a depth of 200 feet where the vein exposed measures better than 12 feet between walls and carries values of from \$19 to \$40 gold to the ton. The strike is not on a new ore body but at the extension of a vein opened some time ago on another level. Quite a little develop-

Naturally makes them shrink from the indelicate questions, the obnoxious examinations, and unpleasant local treatments, which some physicians consider essential in the treatment of diseases of women. Yet, if help can be had, it is better to submit to this ordeal than let the disease grow and spread. The trouble is that so often the woman undergoes all the annoyance and shame for nothing. Thousands of women who have been cured by Dr. Pierce's Favorite Prescription write in appreciation of the cure which dispenses with the examinations and local treatments. There is no other medicine so sure and safe for delicate women as "Favorite Prescription." It cures debilitating drains, irregularity and female weakness. It always helps. It almost always cures.

"Favorite Prescription" is strictly non-alcoholic, non-nec. et. all its ingredients being printed on its bottle-wrapper; contains no deleterious or habit-forming drugs, and every native medicinal root entering into its composition has the full endorsement of those most eminent in the several schools of medical practice.

Some of the numerous and strongest of professional endorsements of its ingredients will be found in a pamphlet wrapped around the bottle, also in a booklet, mailed free on request, by Dr. R. V. Pierce, of Buffalo, N. Y. These professional endorsements should have far more weight than any amount of the ordinary lay, or non-professional testimonials.

The most intelligent women now-a-days insist on knowing what they take as a medicine instead of opening their mouths like a lot of young birds and gulping down whatever is offered them. "Favorite Prescription" is of KNOWN COMPOSITION. It makes weak women strong and sick women well.

Dr. Pierce's Medical Adviser is sent *free* on receipt of stamps to pay expense of mailing *only*. Send to Dr. R. V. Pierce, Buffalo, N. Y., 31 one-cent stamps for cloth-bound copy.

Dr. Pierce's Pleasant Pellets invigorate and regulate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.

THE RAREST PLANTS
by Phil Witte

LOT OF THE MOST VALUABLE PLANTS IN OUR PARK HAVE BEEN WANTONLY DESTROYED BY SOMEONE!

COME WATSO, WE WILL VISIT THE PARK!

(RIGHTO.)

THEY'RE USE, ONE OF OUR RAREST PLANTS, WITHERING IN THE SUN!

WHAT A PITY! WE MUST, BY ALL MEANS, LAY OUR HANDS UPON THE PERPETRATOR OF THIS OUTRAGE!

CLEARLY THE CULPRIT WAS DISTURBED IN AN ATTEMPT TO TRANSPLANT THE SHRUBS TO HIS OWN GARDEN!

YOU ARE IMPROVING, WATSO!— BUT ANYONE WHO WISHED TO SAVE THE PLANTS, WOULD HAVE BEEN MORE CAREFUL NOT TO INJURE THE STEMS!

THEN IT WAS DONE IN A SPIRIT OF WANTON DESTRUCTION!

HARSHLY, WATSO!— IF SUCH WERE THE CASE, IT WOULD BE SIMPLY TOO EASY TO FIND THE PERPETRATOR!

IF I MISTAKE NOT, WATSO, THERE IS GOOD FISHING TO BE HAD IN THE PARK RESERVOIR!

SO, MR. NEKVO, YOU PULLED UP SOME OF THE RAREST PLANTS IN THE PARK TO GET A FEW WORMS FOR BAIT!

(WELL, I COULDN'T FIGHT WITH- OUT WORMS.)

ASTOUNDING.

BRIDGET'S RESOLUTION

From Success Magazine.

The secretary of a social club was presented with a cut glass loving cup.

His servant surveyed the object the next morning.

"Look at them three handles on the pitcher," said Bridget. "They know if I break one of them handles they'll have two left, and if I break two they'll have one left, so they'll always have one. They will, they will, I'm not so sure about that!"

METALS

LOST—Small red enamel watch. Reward at Gazette.

REASS sign Pratt-Elkhart 40. Return to this office.

Mrs. D. C. Price, 1 Telluride avenue, Colorado City, Colo., says: "While living in Granby, Mo., in 1907, I told in a public statement of my experience with Doan's Kidney Pills. I was subjected to severe pains in the small of my back, which came on suddenly and caused me a great deal of suffering. I had to be very careful in stooping or lifting and I was convinced that I had kidney complaint from other annoyances. The contents of two boxes of Doan's Kidney Pills made a complete cure, and at this time I am glad to say that I have had no return attack of kidney trouble. I think highly of Doan's Kidney Pills and willingly give them my endorsement."

For sale by all dealers. Price 50 cents. Foster-McMullen Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Chicago

Chicago, July 24.—Rains that meant millions of bushels added to the corn crop made the market for the cereal today almost without bottom. As a result, other grains too were plunged lower and the end of the session left net losses all around—corn down 1 1/2 to 1 3/4, wheat 1/2 to 3/4, and oats 1/2 to 3/4. Provisions had a ragged finish, varying from 20c off to 50 1/2c up.

Not only were there heavy rains throughout the corn belt, notably in Kansas and Nebraska, but the official long range forecast told of weather that was wet for much of the coming week. Selling orders flooded in from every side, while prices in some cases down more than 2c a bushel without a sign of waver. Values sagged till at the last they were struggling from the lowest point of the season to 1c above. All day long country dealers were eagerly unloading corn here in as large lots as would be taken. September ranged from 67 1/2c with the final loss nervous at 65 1/2c.

Cash grades were weak. No. 2 yellow finished at 65 1/2c. Wheat held up pretty well at first but support was purely local and soon gave out. Gradually the corn weakness took effect and then came a big increase in the visible supply, 1,122,000 bushels not including probably 1,500,000 bushels on late tracks in Chicago. September fluctuated from 67 1/2c to 65 1/2c, closing at 65 1/2c.

Oats followed the same course as corn though not to such a radical extent. High and low levels touched by the September option were 41 1/2c and 40c, with last sales 40 1/2c at 40c.

Rye, on the other hand, was supported by selling. When the pit was closed the product was 20c lower to 2 1/2c up. On the other hand, hard and soft had become 2 1/2c to 7 1/2c increased in value.

Quotations Furnished by Otis & Hough.
